

A Professional Society Representing the Nation's Crop Production, Research Consultants and Quality Assurance Professionals

SHOUT OUT TO STATE AFFILIATES

NAICC is proud to list the following state associations as members of NAICC. State affiliates enjoy a variety of valuable benefits, including a network of other ag professionals nationwide. NAICC members know that there is someone within the membership in their area, state or even across the country that has encountered problems similar to those you are facing.

NAICC members benefit from advocacy support at both the state and federal levels. This is accomplished by having a seat on the NAICC Governmental Affairs Consultants Subcommittee, which facilitates two-way communication about state-level political issues that may impact neighboring states. Representatives also keep their state members informed of NAICC's activities in Washington, DC, ensuring everyone stays up to date on important legislative matters.

Educational opportunities are available to all members, including sessions at the NAICC Annual Meeting & AG PRO EXPO, regional workshops, and webinars hosted on NAICC Academy. State Affiliate members receive a fifty percent discount on registration fees for their representative at these events, making participation even more accessible.

These benefits help associations remain connected, informed, and actively engaged with the broader agricultural community. If your state association is not currently listed among NAICC members, you are invited to join. Membership dues are \$10 per voting member of the state association, with a maximum cap of \$500.

Don't miss out on the opportunity to strengthen your association's voice and stay informed on key crop and research consulting topics and legislative issues. Join NAICC today and become part of a nationwide network dedicated to advancing our industry. Contact Allison Jones at allisonjones@naicc.org for more information.
