Android devices

*Android phone*

*Android tablet*

# Ongoing Security Improvements

## **In process - SOC 2 Type 1 audit**

Based on five “Trust Service Criteria”:

- Security
- Availability
- Processing Integrity
- Confidentiality
- Privacy

## **In process - Hardening our software’s security to match the US government’s such as FedRAMP**

Federal government’s standardized approach with cloud products and services relating to:

- Security assessment
- Authorization
- Continuous monitoring
