CONSULTANT EDUCATION COMMITTEE

NAICC Members: Your Input Is Requested

The Consultant Education Committee has developed two sessions for the 2026 Annual Meeting and would like your input from the 2025 season.

As you go through the season, please make notes on the following:

(The notes section on your phone is a quick and easy way to capture the moments throughout the summer)

1. Mechanisms of Active Ingredients
 - What chemistries are working and what is not?
 - How are weeds getting around the chemistry?
 - What synergies between chemistries are you seeing work?
 - Are you seeing any that are antagonistic?
2. Uses with Drones in Ag- Applications and Data Collection
 - What is on the horizon in insecticides, herbicides, and diseases?
 - How does the use of drones impact drift and the protection of endangered species.

NAICC will send a survey out this fall to capture your notes and develop questions for our speakers and panelists. Speakers and panelists will come from academia, crop consultants, crop protection equipment manufacturers (spray nozzle and adjuvant manufacturers).
